Professional Training Service Co., Ltd. ('PTS'), a Gold level member of Oracle PartnerNetwork (OPN), has announced the availability of a new JD Edwards EnterpriseOne private cloud service for midsize customers in Thailand using subscription pricing offered to Oracle Accelerate solution providers. The new Oracle Accelerate solution, 'Global ERP Cloud by PTS' delivers Oracle's JD Edwards EnterpriseOne applications such as General Ledger, Purchase and Order, Procurement, Sales Management and Inventory Management as a Private Cloud Service.

PTS will implement and support each customer's environment based on the company's knowledge and experience of Oracle's JD Edwards EnterpriseOne. 'Global ERP Cloud by PTS' is delivered via the internet from the ISO-Certified (ISO 20000/ISO 27001) data centre of Datapro Computer Systems Co., Ltd. ('DCS'). DCS is a leading provider of hosting, co-location, disaster recovery and business continuity services for many large multinational and local companies in Thailand.

‘Global ERP Cloud by PTS’ brings the benefits of cloud computing to midsize companies in Thailand helping these companies leverage a world-class ERP solution without having to own and operate their own IT systems and infrastructure. The service can be deployed quickly and is priced on a subscription-based model.

“PTS is proud of this announcement. We have been working closely with Oracle to align Oracle technology expertise and leadership with a cloud service for midsize customers. PTS helps organizations derive maximum value out of technology investments through private cloud ERP solutions,” said Visut Suwanwitwaj, Managing Director, PTS.
